

Wayfarers™ Creature Power Scores

Power scores are a means of estimating the general threat a hostile creature might pose to player characters. The power score is derived from a formula incorporating the creature's dodge score, health points, armor or hide, mental resistance, and the amount of damage it can inflict in one round. The higher the power score, the more powerful the creature. Of course, individual creatures and encounter conditions will vary. For this reason, power scores represent a relative estimate at best.

Creature	Power score	Creature	Power score	Creature	Power score
Ablocanth	12	Drake	20	Minotaur	12
Amphiptere	4	Smok	28	Mycoloid	4
Angels		Wyrm	29	Naga	8
